Wine Labels

Wineries are offering customers a bottle of their choice of wine with a custom wine label featuring their photo, name, and occasion, and a back label featuring the winery and government-required information.

Large wineries and small wineries alike are making their own custom wine bottle labels, corporate gift wine labels, and wedding wine labels .

The affordable **Zeo!** desktop label printer is ideal for boutique winery production, designed for instant printing of photographic wine labels in tasting rooms and gift shops.

The **Vivo!Touch** label printer is designed for larger-scale production, labeling wine for wholesale and private label customers.
